Lectori Benigniſſimo.

Courteous Reader;

IT having pleaſed God, the Fountain of all Benediction, (by whom Kings reign, and Kingdoms are eſtabliſhed) not only in ſo miraculous a manner to extend his great Mercies to theſe Kingdoms, in our thrice-happy Deliverance by the late Revolution, but alſo to continue the ſame Favour unto us under the Auſpicious Government of their preſent Majeſties, by bleſſing them and us with ſo many ſignal Victories of their Enemies, and wonderfully preſerving our great Deliverer through ſo many apparent Hazzards of his ſacred Life and Perſon, whoſe Glory (in reviving the brave Examples of our former renowned Monarchs Edw. III, and Hen. V, who eclipſed the Pride of France more than once) is deſervedly ſpread to our Antipodes, and to whoſe Soveraign Providence (next that of Heaven) we juſtly owe our utmoſt Duty and Gratitude, for the preſent Enjoyments of our Religion, Laws, Liberties, and whatſoever elſe is dear and eaſy to us. What now remains on our parts, is, in the firſt place (with united Hearts) to be truly thankful to Heaven for theſe publick Bleſſings, and to ſend up our Orizons to the Throne of Mercy, that God would be pleaſed ſtill to proſper and bring to a ſpeedy and happy Iſſue, this Great and Glorious Deſign of their Majeſties and their Allies, to ſecure and eſtabliſh the Welfare and Liberty of Chriſtendom, by aſſwaging the Violence of Europe's Firebrand, (the French Tyrant) who has laid ſo many Countries and Villages in Aſhes, and ſet the whole World in a Flame, which is the hearty Deſire and Wiſhes of,

Die ℣ Aug. 20, 1691.

Their Majeſties moſt Loyal Subject, and my Country's Servant,—

WOODWARD.

Observations.

Δόξα καὶ Ἔπαινος Θεῷ.

That the various contingent Actions and Accidents of Mankind in this inferior World are guided and disposed by certain *Celestial* Vertues and Proprieties passing forth and diffused from the *Ethereal* and Heavenly Nature, upon the whole Circumference of the Earth, and upon *all* things subject to Mutation, is doubted of none who are any whit acquainted with *Philosophy*, or have at any time but seriously contemplated on the dependance which their own (and others) Affairs daily have on the *Influence* and *Providence* of Heaven: Nor do these Celestial Powers and Vertues act on *Men* and *Things* confusedly, or without order, but according to the known *Laws* of the Heavens, *viz. The regular Motions and Configurations of the Sun, Moon, and Stars.* And hence (not without reason) we have (in our accustomed manner) deduced our *Astrological Observations* and *Conjectures* of the general Affairs of *Europe*, and the most material Events likely to happen.

Since perjur'd Villains (Plotters of our Times)
Still act those horrid and infernal Crimes,
Disturb just Heaven, Magistrates provoke,
Till Justice overtakes them with a *Rope*.
'Tis all but just that such flagicious Men
Should be took off, never to plot agen.

Observations.

A Jove Principium.

To begin the Year the first *Full Moon* is eclipsed, and the next *New Moon* eclipses the *Sun!* In the Figure of the former ♋ ascends in our *Horizon*, and the Light deficient is placed in the second House, in the dignities of ☉, of whom she is opposed; this together with the numerous Aspects throughout that Month, is likely to produce as numerous and various Effects in this. The common People find great scarcity of Trade, want of Money, unsupportable Losses and Afflictions, *&c.* The adventurous Merchant is threatned with *Shipwrack*, and other considerable Losses, *&c.* Also about this time we may expect to hear of much Mischief by *Sea-storms*, *Inundations*, &c. A froward seditious sort of People are privately aiming to confront Authority, and asperse the present Government; but Experience lets them know, *there is no resisting the Decrees of Heaven*, and if they smart for their Follies, let them thank themselves.

The *Jacobites* do all fret, fume and ſwear,
Becauſe (alas) th'are catch'd in their own *Snare*;
Forge factious Libels, and contemn our *Laws*,
As being repugnant to their old Cauſe.
But, Gentlemen, take heed, pray, leſt you fall,
For *Squire Catch* looks grim upon you all.

Observations.

In the *Figure* of the *Solar Defect* in *February*, we find ♂ in ♓ in the sixth House, and within the *Orbs* of an ☌ of ♄, who disposes of the *Eclipse*. This presages Sickness with Penury and Scarcity of Provision for *Man* and *Beast*, chiefly in the Countries Eastward, (for the *Deliquium* falls in the *Oriental* Angle) and amongst the Souldiery. It also shews tempestuous and stormy Winds, pestiferous and hurtful to Mankind. But forasmuch as ♀ and ♃ do receive each other, and are the most potent Planets in the *Scheme*, and the *Eclipse*, not very large in it self, nor visible in our *Hemisphere*, much of the evil Effects aforesaid will be abated; God grant they may be wholly so in our *Metropolis*, *London*, where I fear a sickly *time*.

Great are the Preparations for the Field in all parts of *Europe*, but I hope by this time the happy, and long wish'd for *Peace* is on Conclusion betwixt the *Emperor* and the *Turk*, which makes the most Christian Turk both at his Hopes and Wits end.

April hath XXX Days.

No more Debates, Distinctions, nor such Dins
About *de Jure*, or *de Facto* Kings;
But leave those high Disputes (lest ye repent)
To our grave *Lawyers*, and wise *Parliament*.
For *Beelzebub* is loose and plays his Pranks,
And he that meddles least will have most Thanks.

Observations.

The *Trine* of ♄ to the ☉ in ♈ in the *last* Month, will have visible Effects in *this*, and is of excellent signification to their Glorious *Majesties*, and the Monarchy of *Great Britain*. The great *Council* of the Nation advances the Honour of its *Crown*, by a blessed Union and mutual Agreement both among themselves and with their *Majesties*; which compleats the *Harmony* of our happy *Government*. Good News arrives from their Majesties Forces and their Allies abroad, probably it's the taking some considerable Place, or Places of strength on the Frontiers of *France*, whence we hear of frequent Incursions and Skirmishes, *&c.* The glorious Planet *Venus* entring her own Mansion ♉, and there conjoyning with ♃, (*Fortuna major*) promiseth Tranquillity to *Ireland* after its late Miseries and Confusion, and that the Loyal People therein need not now fear any considerable Molestation from the Rebels or Rapparees.

at *London* Bridg.

May hath XXXI Days.

Chronus moves backward! and presumes t'oppose
The *Royal Sun*, 'gainst whom with lowring Brows,
And plotting Brains, he sends that hateful *Ray*,
And then with Shame (discover'd) sneaks away.
You, that for others Ruin, *quest* and *plot*,
Take special heed, your selves you ruin not.

Observations.

In this fereen *Month* the *Mutual Aspects* are all very favourable, except that of *Saturn's* ♀ to the ☉. They intimate very eminent and weighty Consultations and deliberate Councils on foot, which prove of happy Consequence to their *Majesties*, and the Affairs of *Great Britain* and *Ireland*. But yet there are a sort of *Demonites* in this divided Nation, that no *Civility* can *oblige*, nor *Favours indulge*, no *Clemency reconcile*, nor *Patience* or *Pardon prevail* on; till an offended *Justice* works their *Conviction* by a severe *Correction*. And let me tell such Miscreants, there is no *Plot* nor dark *Conspiracy* (how subtilly soever contrived and carried on against the lawful Soveraign Power now established) but will be near this time discovered, to the Shame and Peril of the Contrivers and Aggressors. Chearing Intelligence arrives about the the Month's end, gladding the Hearts of those that do not love the *French Tyrant*.

June hath XXX Days.

Against th'inhumane Treacheries of *France*,
This Month's Events doth *Europe*'s Cause advance.
Hermes with *Sol* in *Gemini* doth join,
And *Chronus* courts bright *Hesper* with a Trine.
The Starry Pow'rs *England*'s dread *Sovereign* guards,
Whilst his proud *Foes* meet with their just Rewards.

Obſervations.

The general Affairs and Actions of this Month (in which the Influence of the laſt Month's Configurations continue to appear) are managed with the greateſt *Policy* and *Judgment* on all hands. ☿ in ♊ in * to ♂ in ♌, denotes ſundry Motions of *Armies* in the Field, and frequent Removes and ſhiftings of *Camps* and *Quarters*. The Heavens ſeem to favour the *Engliſh*, who act with their wonted Courage and Bravery where they are concern'd, and miſs not of ſuitable ſucceſs.

Some Regulations ſeem near at hand, of Perſons and Places of Truſt both in *Eccleſiaſtical* and *Civil* Affairs.

The benevolent and auſpicious Planet ♃ is now entred ♊ the *Aſcendent* of *London*, and may, I hope, incline her worthy *Citizens* and other *Inhabitants* to be more *unanimous* than of late they have been, and to lay aſide thoſe Inteſtine Diviſions and Animoſities, occaſioned or augmented by angry ♂ his late tedious *Tranſit* through the ſame Sign.

The inauſpicious *Squares* of angry Stars
From *Humane* Signs, give *bloody* Broils and Jars;
Yet *Sol* in *Leo* meets with *Saturn*'s Trine,
Grave *Council* guiding, *Royal* Might doth ſhine:
Whence *Engliſh* Bravery's now again renew'd,
And many of her Enemies ſubdu'd.

Observations.

Mars is now enter'd in the Ascendant of *Paris*, and about the middle of this Month he transits the place of the *Sun* in the *Radix* of the *French King*.

Exsurgat Deus, &c.

The *Metropolis* of *France*, and consequently many other *Cities* and *Provinces* of that Realm, are now troubled with a *bad Digestion!* (the great *Work* going so fairly forward, which God has design'd for his *Glory*, and the rooting of *Tyranny* and *Slavery* out of *Europe!* in many places whereof the Actions of this Month are of a Scarlet Complexion) —— And notwithstanding many *French* Stratagems and treacherous Designs are industriously contrived, and some of them put in Execution also, to incommode the Approaches of the *English* and other *Confederate* Forces, on the Enemies Territories; yet it appears (by some signal Victories) that the Heavens will not much longer suffer the many bloody, treacherous and inhumane Actions of the *Grand Disturber of Christendom* to be unrewarded.

August hath XXXI Days.

This Month bright *Sol* in *Leo* loseth Light,
And bids the *Prince* beware his *Favourite*.
Anguis in herba latet! Sirs, take heed,
Lest treacherous *Adders* on your Safeguards feed:
The many *Quartile* Aspects here imply,
In great Ones Guile, in Councils Treachery.

Observations.

August enters with an *Eclipse* of the ☉ in ♌, in the 11*th* House, *viz.* the House of *Fame*, *Friendship* and *Benignity*; also it signifies the *Counsellors* and Servants of *Kings*, their *Friends*, *Favourites* and *Allies*, &c. In the Figure of this *Eclipse*, we have the *Moveable Equinoctial* and *Tropical* Signs possessing the *Cardinal Angles*, which (with other concomitant Significations, considered together with the *Lunar Eclipse* in the last Month, with which a *moveable Sign* ascended also) will much *accelerate* and push on the Influences and Effects hereof, which notwithstanding may continue in durance (more or less) throughout the following Winter. It presages *Troubles* and *Anxieties* to *Princes* and Great *Men*, *corrupt Councils* and *Treacheries*, from their *Friends* and *Servants*; it also shews *Captivities*, besieging and ransacking of *Cities* and *Towns*, with the Prophanation of Sacred and Religious Houses, or such as be under that Denomination, &c. God preserve our *Metropolis* from Diseases and Mortality.

September hath XXX Days.

France now for former Deeds meets juſt Reward,
Upon her Confines *Ruin*, *Fire* and *Sword*,
With pinching *Poverty*; her Children moil,
And find at laſt their Labour for their Toil:
Then through Neceſſity their *Tyrant* ſerve,
Who gives them *Choice*, either to *bleed* or *ſtarve*.

Observations.

From the the various Configurations of the two last Months, (with the other *contiguous* Causes therein respectively mentioned) we may expect about this time, some more than usual *Prodigies* to happen in the World: Perhaps that great Violator of the Rights of *Princes* and *Nations* (the *French King*) may be now, or near this time, severely visited with the just Judgments of the Almighty (who, tho of Long-suffering and slow to Anger, yet never faileth in the end) for his many inhumane and unparallel'd *Violences* and *Oppressions*, both at home and abroad. His miserable Subjects, after many Years *Plagues* of cruel *Tyranny*, instead of a *Jubilee*, are now groaning under the *Plagues* of a fierce and destructive *War*, and the Calamities of *Poverty* and *want* of Bread!

Telle est Destinee des Tirans.

Some *Epidemical* Distemper reigns in many parts of *Europe*, but we hope not with us. Good News to the honest *Merchant* concludes the Month.

London Bridge.

What though few Aſpects in this Month appear;
Yet the Effects of former *ones* draw near:
The *Gallick* Monſieur now repents too late,
Repining at *inexorable* Fate.
Hard is the Task, his Ruins to repair,
And fix 'gainſt ſudden Storms his tottering Chair.

Obſervations.

This Month, tho' it hath the fewest *Mutual* Aſpects of any Month in the Year hitherto, yet ſeems to be attended with as conſiderable Action (the Latenes of the Seaſon conſidered) as any other; for we are now under the powerful *Influences* of the two laſt *Eclipſes!* God direct the Councils and Actions of our Heroick and *Perilluſtrious* Monarch King *William* (with his Allies) whoſe valiant *Sword* hath ſhewed its Power and Prerogative to be far above that of the *French* Gold, and whoſe wiſe Conduct (ſtill the *Primum Mobile* among the Princes of *Europe*) hath defeated the Hopes of *Lewis le Grand*, and his Accomplices, to enſlave his neighbouring Nations; and hath given him work enough (and more than enough) to defend and preſerve himſelf; whoſe blaſted Glory ſhines now with fainter Beams, and declines towards its ſetting.

Several eminent Commanders and Souldiers receive Honour, *&c.* for their good Services.

Audentes Fortuna juvat.

This Month a Royal *Hero* forth did bring,
William the *Great*, Renowned *England's King*:
Stedfast in all the *Vertues* of the *Brave*,
And to no *Vices* of the *Great* a Slave:
Who did our *Laws* and *Libertie* restore,
Whose *Name* shall live when *Nature* is no more.

Observations.

Now *Fate* hath pretty well plaid its part, and (bleſſed be God) to our advantage, and the downfall of ſundry of our modern Plotters, the *King* and *Kingdom's* Enemies; whoſe clandeſtine, baſe and pernicious Practices the bounteous Heavens have been too many for.

We may now hope to ſee ſome *Wolfs* removed from their Poſts of keeping *Sheep*, and the Cauſes of ſome late Diſaſters taken away; whilſt many worthy Perſons (true Lovers of their Country's juſt Rights and Liberties) are advanc'd in Honours, and the Favour of their *Soveraigns*.

Armies are diſperſing and retiring into Gariſons and Winter-quarters; and a day of Account is come with ſeveral unjuſt *Stewards*.——

Much robbing and padding on the High-way, and many Malefactors of divers kinds are become obnoxious to Juſtice.

Currat Lex, fiat Juſticia.

Let the ſpreaders of Libels againſt the Government look to it.

December hath XXXI Days.

W'have now beheld th'Events of *Ninety Two*,
And with our Eyes seen what the *Fates* can do!
Kind to these *Kingdoms*, and averse to those
False Traitors, dare our *King* and *Laws* oppose.
Then let's with chearful Hearts *them both* obey,
And for blest *Union* never cease to pray.

Observations.

Est certus desiq; finis.

The many violent *Conjunctions* and *Oppositions* in the latter part of the last *Month*, will be followed with as violent Effects in this; great thwarting, Animosities, Contradictions, Law-Suits, and perhaps Duels among Persons of great Quality, with more than common Vexations and Troubles to all, may be justly feared. Sundry eminent *Ecclesiastical* Persons fall under Impeachment, and 'tis probable not without cause, whence some Removes may be expected. God preserve the Affairs and Honour of his *Church*, and all those Worthy *Dignitaries* intrusted with the Care thereof in this Realm, and grant that all *Protestants* (of what Distinction or Denomination soever) may make this good use of our late happy Deliverance, *viz.* to endeavour and study *Peace*, *Unity* and *mutual Agreement*, and to pay their due Tribute of Loyalty and Obedience to their Majesties KING *WILLIAM* and QUEEN *MARY*. *Amen.*

An easie and useful Table, shewing how many Years Purchase a Lease, or Annuity, to endure for any term of Years under 33, is worth presently at Interest upon Interest, at 6 in the Hundred; and shewing plainly how to discount any Lease in being, and the true value of the Reversion after any number of Years.

The Explanation of this Table.

THe first Column towards the left hand, shews the Years of a Lease or Annuity, & right against each Year, are the Years, Months, and Decimal parts of a Month's Purchase that such a Lease is worth.

As for Example.

Suppose a Lease or Annuity to continue 10 Years, and you would know how many Years Purchase it is worth in present Mony; look in the Table for 10 Years of a Lease to the left hand, and against the same you will find 7, 4, 3. which shews that your Lease of 10 Years, is worth 7 Years, 4 Months and 3 10*th* parts of a Months *purchase.*

Years of a Lease.	Years.	Months.	Decimal parts.

20	11	5	7

22	12	0	5
23	12	3	6
24	12	6	6
25	12	9	4
26	13	0	0
27	13	2	5
28	13	4	9
29	13	7	1
30	13	9	2
31	13	11	1
32	14	1	2

Again, if you were to take or buy the Reversion of any Lease or Annuity, work thus. Suppose the Lease to be thirty Years in all, you shall find in the second Table, and right hand, against 30, 13 Years, 9 Months, and 2 tenth parts of a Months Purchase; this it were worth were it in present Possession. But suppose there be a Lease of 5 Years (more or less) before you Commence, look in the Table against 5 Years, and there you shall find 4 Years, 2 Months, and 5 tenth Parts, (or half a Months Purchase); substract this out of the Sum against 30, which is 13, 9, 2 less by 4, 2 5. The Residue after Substraction is 9 Years, 6 Months, 7 tenth parts of a Month; and so much is the Reversion after 5 Years worth the Remainder of 30.

Here

Here follows the Use of the foregoing Tide-Table, viz. how it's to be used with the Moons *Southing, whereby it may be made plain, especially to all those whose Imployments chiefly depend on the* SEAS.

SUppose that you desire to know what time it will be *High-Water* at *Bristol* the 10*th.* of *Jan.* 1692. (it being already performed on the Right-hand Page and 8*th.* Column of the *Kalender* for every day this Year at *London*) I turn back to the Table of the *Moons* Southing (for through every Month in that Table the *Moons* Southing is inserted) where against the 10*th.* of *January*, 1692. I find 1 hour 30 minutes, &c. which is the precise time of the *Moons* coming to the South in the Longitude of *London*: Then in the Table on the back-side of this Leaf against *Bristol*, &c. I find 6 hours 45 minutes. So that I conclude 'tis *High-Water* at *Bristol* 15 minutes past 8 of the Clock in the Morning, the 10*th.* of *Jan.* 1692. *Et sic in aliis.* But if the Sum of the two former Numbers had exceeded 12 hours, you must have subducted 12 hours therefrom, and the Residue had been the time desired.

Where Note, That the Tide flows one Point of the Compass more at the Spring-Tides (which are the New and Full Moons) than at the Neap-Tides (which are the first and second Quarters.) As also Land-Floods and boisterous Winds may cause some Variation, but this is the exactest Rule that can be given, in regard the Moons Southing is Calculated with Latitude.

To gain the Hour and Minute of the Night by a *Sun-Dyal*, observe, when the Moon shines, see how many hours and minutes the Shadow wants of the Line 12, which substract from the Moons Southing, leaves the time of the Night; but if the Shadow falls past the 12*th.* Line, add the hour and minute to the hour and minute of the Moons Southing, the Sum is the Hour and Minute of the Night desired. *This may prove Delightful.*

Both Time, *and* Tides, *pass swift away,*
And will for no Man's Leasure stay.

Fugit Hora, sine Mora.

Of

Of the ECLIPSES *this present Year.*

I. OUR *English Ephemerides* tell us, that in this Years Revolution, there will happen Five *Eclipses* of the *Luminaries*, or Lamps of Heaven, *viz.* three Solar Eclipses, and two Lunar, happening in the following Order.

II. The first will be an *Eclipse* of the *Moon*, the 23*d.* day of *January*, about Two of the Clock in the Afternoon; Celebrated in the 14 degree of the Cælestial Sign *Leo*; but Invisible to our *English* Inhabitants; notwithstanding, this Eclipse will be both Visible and Total in the more Southern Parts of the World.

III. The second will be an *Eclipse* of the *Sun*, the 9*th.* day of *February*, near Five of the Clock in the Afternoon, in the latter part of the Sign *Aquarius*; Invisible to us in *England*.

IV. The third will be an *Eclipse* of the *Moon* the 18*th.* day of *July*, about Four of the Clock in the Morning; 'Twill be a great Eclipse, Celebrated in the 6*th.* degree of the Cælestial Sign *Aquarius*; and if the Air be clear, part of this Eclipse will be Visible to our *Brittish Kingdom*.

V. The fourth will be an *Eclipse* of the *Sun*, the Second day of *August*, a little past Nine of the Clock in the Morning, in the 20*th.* degree of the Cælestial *Lion*, (the *Sun*'s own Mansion or Domal Dignity) not Visible to us; besides, 'twill be but a small Eclipse, one fourth of the *Sun*'s Body looseth Light.

VI. The fifth will be an *Eclipse* of the *Sun*, the 27*th.* of *December*, about Two in the Afternoon, in the 17*th.* degree of *Capricorn*: Moreover, the Eclipse being so small, (*viz.* one 12*th.* part obscur'd) that we shall scarcely behold it.

Lastly, *That as I am an Astrological Professor, so I undertake to teach each its several Parts; to wit,*

I. The *Pars Horarii*, the Method of Resolving *Questions*: As Life, whether long or short? Rich or Poor? What Part of the Life is like to be most Prosperous? Or any other Legal demand, whose Solution is contain'd within the Perimeter of this sublime Physical Science.

II. The *Pars Genethliaca*, the manner of *Rectifying*, *Directing* and passing Judgement on *Nativities*, discovering the most Remarkable Accidents that may happen during the Race of Mans Life. Also how to Calculate the Longitude, Latitude, Declination and Ascension of the *Planets*.

III. The

III. The *Pars Mundana*, how to Calculate and Judge an *Annual Revolution*, *Compose Monthly Observations*, the Calculation of *Eclipses*, past or to come, and to declare their Signification; together with the Portents of *Comets*, or Eminent Configurations, the Rising, Southing and Setting of the *Moon*, or any of the *Wandring Stars*, as also the Use of the *Globes*.

IV. In *Physick*, I have Medicaments ready prepared and fitted for the Cure of most Diseases Cureable (as well Specifick as Catholick) incident to the Bodies of *Men*, *Women*, and *Children*.

I. My *Cordial Pills*, are known to be as excellent a Medicine as any yet Published, to assist and fortifie decaying Nature; for no destructive Matter can lurk in the Body of Man, but these *Pills* will soon drive it out, and in its place render the Body Healthful, having been effectual in Curing the *Dropsie*, *Griping in the Guts*, *extream Pains of the Gout*, *Green-sickness*, *bad Digestion*, *all manner of Surfeits*, *Exulceration of the Kidneys*, *Head-aches*, *Convulsion-fits*, *Fevers*, *Leprosie*, *difficulty of Breathing*, *Stoppage of the Stomach*, *Pain in the Stomach*, *Agues*, &c. and for the *SCVRVT*, they are the best *Pills* in the World. They resist all foulness and Infection in the Act of Generation, Mundifie and Cleanse both *Blood* and *Skin*, restore and increase Beauty, make Old Age comely, and the Complexions of all Persons Chearful and Sanguine, scarce a Malady from Head to Foot, but these *Pills* (with God's permission) will be found very assisting. Besides, the *Pills* will not Corrupt (if you keep them from Moisture) though kept an Hundred Years, and that no Drug-Medicine will do: wherefore they are serviceable for those that Sail to the *East* or *West-Indies*, for some that go such long Voyages, miserably perish for want of so Universal a Helper. These *Pills* are the Cheapest, considering their goodness, that ever Man us'd; standing Sentinel in the Body, not admitting Natures Enemy to enter: For, as they are compos'd of the best Minerals, so they can't but be the best of Medicines, vastly transcending any Medicament of its intention. These *Cordial Pills* taken at the beginning of Diseases, will, under God, be a means to save many a Pound; besides, they prevent the Sick of being Tortured with violent Vomits, Salivation, Blisters, Issues, Cuppings, excessive Blooding, and the like; for really, the exact preserving of Health, consists not in such Practice, but by such a Medicament that is

able, by its Purity and Noble Preparation, to pacify the enraged parts of Man: *Ergo*, kind Country-men, embrace these *Pills* as Jewels, they'll be found of more Worth than a Thousand ill-prepared incongruous Medicines that are daily vended both in City and Country. As the *Pills* are beneficial for those that go to Sea, so they are for those that live in Country, remote from able Physicians: Therefore, I advise all such not to be wanting of these *Pills* in their Houses, being in a manner Physick upon all occasions; and for that reason (God willing) I will be well furnished therewith. *The biggest Box contains* 30 *Pills, Price Half a Crown; the least Box* 18 *Pills, Price* 1s. 6d.

II. My *Balsamick Pills.* The Reason of the Publication of these *Pills*, is not only for Varieties sake, but also to oblige those Persons that may be deterr'd from taking my *Cordial Pills*, because of their Vomitting Operation: These *Pills* do not cause any to Vomit, unless their Stomachs be foul or much Obstructed. And as to their Vertues, I shall only say what I know by Experience, proposing them as a general Remedy, as far as Purging is requisite, against most Diseases: They are infallibly good in the Cure of the *SCURVY, Dropsie, Headaches, Melancholly, Sleepy-Evil, Giddiness in the Head, Dullness of Hearing, Dimness of Sight, Jaundies, Sore Eyes, Stinking Breath, want of Apperite, Pains in the Stomach, Liver, Spleen, Gripings in the Breast, Bowels or Joynts*; Open *Obstructions* of both *Reins* and *Bladder*; help *Barrenness* and *Fits* of the *Mother*, quicken the Senses, clear the Sight, add a good Colour to the Face, and make the Body able to withstand *Diseases*; Purifie, cleanse and sweeten the *Blood*, resist Putrefaction and Corruption of the Humours thence proceeding, afflicting the *Head, Liver, Spleen, Gall, Stomach, Reins*, Bladder Joynts. They are also excellent to Purge the Body after *Sickness*, or *Excessive Drinking*, or before letting of *Blood*; and for such to take that Drink either *Tunbridge, Epsom, Islington*, or other Waters. *They'll retain their Vertues several Years, put in Tin Boxes; The whole Box contains* 36 *Pills, Price* 3s. *the half Box* 18 *Pills, Price* 1s. 6d.

III. My *Elixir Salutis* has been experienced many Years an Excellent *Cordial Drink*, and to oblige those Persons that can't take *Pills*, I Publish this *Elixir*; it has been given to Young and Old, and prov'd it self successful in the Cure of the following Distempers, to wit, the *Chollick, Griping in the Guts; Scurvy, Shortness of Breath, Coughs, Surfeits, Dropsie, Bad*

Dig[illegible]

Digestions, Vapours from the *Spleen, &c.* Besides, this *Cordial* revives *Drooping-Melancholly Spirits*, removes Pains from the *Heart* and *Stomach*, *Wind* and *Crudities*, causes *Appetite*, and Cleanses the Body after *Sickness* and Drinking of the Waters; 'twill retain its Vertues several Years; Sealed up in Half-Pint Bottles, *The Price of each is Half a Crown.*

IV. My *Oyntment* for the *Worms*, which destroys them in Young or Old; *Physicians* are of Opinion, That these Vermine shorten more Peoples lives than the *Sword* or *Plague*, for they cause many Diseases, as the *Vertigo*, *Megrim*, *Rickets*, *Falling-Sickness*, *Consumptions*, *Fevers*, *Convulsion-Fits*, &c. Many are afflicted with the *Worms* and yet not know it; some are tormented with them from the Cradle to the Grave. Besides destroying of the *Worms*, the *Oyntment* opens *Obstructions* of the *Stomach*, causes *Appetite*, strengthens the *Stomach*, and hath been (*sub Deo*) instrumental in preserving thousands. *You may have of it from one Shillings-worth, to what quantity you please.*
